DocuSign CLM Connector for SAP Ariba

Save time, reduce errors and eliminate friction

The DocuSign CLM (Contract Lifecycle Management) Connector for SAP Ariba streamlines the source-to-pay process by seamlessly sharing data across systems. A lack of connection between the two solutions can result in excessive manual data entry, lost time moving between systems and costly mistakes associated with out-of-date information. Connect your SAP Ariba Contract Workspace with CLM to automatically update Ariba fields like start date, end date, payment terms and more with data from CLM. Conversely, pull information from the Ariba Contract Workspace into CLM. Generate fewer errors, more efficiency and less friction in your procurement processes with the DocuSign CLM Connector for SAP Ariba.

Easy to implement and maintain

Easily and quickly establish a connection with SAP Ariba via the CLM Connections page, eliminating the need for lengthy, expensive professional services engagements. View and manage all active CLM connections in one place-making it simple to implement, maintain and make changes to over time. Map SAP Ariba Contract Workspace fields to values in CLM via an intuitive user interface and setup a variety of workflow steps to support your sourcing and purchasing needs.
